ABOUT ME

An adaptive and highly motivated Software Engineering graduate from SMKS Wikrama Bogor with hands-on professional experience in full-stack web and mobile development. Proven track record in building enterprise-grade applications, utilizing modern frameworks like Laravel, React, and ASP.NET, alongside robust database management. Experienced in agile industrial environments, capable of delivering high-quality code both independently and collaboratively within cross-functional teams.

WORK EXPERIENCE

Full Stack Developer | PT Talenta Teknologi Indonesia May 2026 - Present

- Developing and maintaining full-stack web applications using ASP.NET for front-end interface and system logic.
- Designing, optimizing, and managing complex database structures and queries using SQL Server.

Full Stack Developer (Internship) | PT Mede Media Softika Janl 2025 - June 2025

- Frontend: Developed and optimized responsive, user-friendly user interfaces (UI) for the Bank Indonesia application using HTML5, CSS3, JavaScript, and Tailwind CSS/Bootstrap
- Backend: Contributed to the core backend development, engineering secure and efficient RESTful APIs and CRUD functionalities for the Coordinating Ministry for Community Empowerment application using PHP and Laravel
